

**NORTH 44TH STREET**—This is the new rectory-residence building erected by Chanen Construction Co. on Gerard High School ground at 2252 N. 44th St. Plans were drawn by Stephens, Walsh, Emmons and Shanks, architects. At right (north) is seen the classroom buildings erected last year. Projection of the second floor eight feet is carried on three sides. This is omitted on the fourth side, toward the classroom building, in anticipation of an addition being built at a later date. Building cost \$162,500. At the same time its mate was erected on the Bourgade High School campus, 31st Avenue and Hazelwood. Both are under the Catholic diocese of Tucson.
